FINISH WORK (finish matching as close as possible, but not guaranteed)

We offer the finest finishing work in the mid-south, and we also do finishing for other builders around the country. We are one of the few shops left offering custom color matching. We offer Candy and Metallic finishes using the original Crescent Bronze metal powders which all factories stopped using 15 years ago. No pre-mixed metallic paint looks anything as good, although we offer those also. We use traditional nitro as well as enamel, polyester and polyurethane. We offer open as well as closed pore finishes.

| <u>SOLID BODY</u> | Plain | Binding 1 side | Binding 2 Side | Binding Wood | Pre-mixed Metallic |
|--|-----------|-------------------|-------------------|---------------------|-----------------------|
| Opaque Color | \$340.00 | Add \$60 | Add \$120 | Add \$40 | Add \$100 |

| | | Plus decal | | | |
| Acoustic Refinishing | | | | (: \$180.00 | |
| Lacquer Touch Up | | | | \$60.00 | |
| Finish Touch Up Buffing | | | | (: \$40.00 | |

Refinishing Stripping Fee \$175.00

Most modern finishes are done in polyester. It is often 1/8th inch thick, and is a complete mess to remove. Refinishes that are going from opaque to a tint have to be further removed for the new stain to take properly. This fee is NOT NEGOTIABLE, and in the cases where krylon was used, may even be higher.

Disassembly Fee (includes reassembly and setup) \$150.00

Tru-Oil Finish \$100.00

Tru-Oil is a modern version of a Tung Oil finish, and is found on many high end custom basses such as Lakeland, etc. Unlike Tung Oil, Tru-Oil also comes with a pore filler, and alleviates the problem of dirt and grime getting into the pores of wood such as mahogany. It has a silky smooth feel, and is applied in multiple layers, letting each layer dry several hours. Can be applied over any custom stain.

French Polish \$300.00

The preferred method of refinishing classical instruments & some acoustics. Not recommended for club use, it is delicate, yet allows the wood to really breathe. It is flakes of shellac melted in alcohol & hand rubbed with a cloth diaper, & has a beautiful glow to it.
